## 7. Results.

The number of fish points will decide the winning team or individual. **Competitors will receive one point for each recorded fish plus 1 point for each session where a fish has been recorded (maximum 8 points).** A tie on number of Points will be resolved as follows:

1. Number of Fish caught.

If the Final is prematurely ended then the results will be calculated at the point of cancellation.

**10. Horn Signals.**

The commencement of each session will be signalled by a long continuous horn blast.

The cessation of each session will be signalled by 2 continuous blasts.

If fishing is to be stopped at any other time due to an emergency (e.g. Thunderstorm) this will be signalled by 4 blasts of the horn. Fishing will not commence until another 4 blasts has been sounded. If a session ends between these signals then the normal end of session and commencement of session signals will be made and the Competitors should move carefully to their next peg and await the 4 blast signal. No Competitor is permitted to fish until the 4 blast recommencement signal is made.

The end of the competition will be signalled by 6 blasts on the horn.

There will be 1 signaller paced at the centre of the Fishery. If a horn is accidentally set off then it will be followed by 3 short blasts to instruct the Anglers to ignore the accidental blast!
