

Dear Competitor,

Thank you for taking part in the 2017 South East FF Federation Rivers Qualifier.

Here is a full set of results, with overall positions worked out according to the procedure outlined in Section 5 'Combining half day qualifier results' on the 'Rivers Multiple Entry Rules' section of the AT TEFF website at <https://te-ff.org/team-england/rivers-qualifiers-multiple-entry-rules/>, ie: "To combine the results the competitor scoring the largest number of fish points (morning or afternoon session) will be the overall winner, with the competitor scoring the largest number of fish points in the other session being placed second. Third and fourth overall places will be calculated between the two second placed competitors in both sessions on a percentage basis of the total fish points score in each respective session. The same method will be used to decide between the two third placed competitors to calculate the fifth and sixth overall places, and so on."

As the rules state, whoever gets the most points is the overall winner, with the top scorer in the other session placed 2nd. To arrive at the subsequent overall positions, we estimate each competitor's points score as a percentage of the total points score in that session.
